

Part # GEN-6-758-10

## CorkSport Firewall Heat Shield 2007-2013 Mazdaspeed3

Thank you for purchasing the CorkSport Firewall Heat Shield for your Mazdaspeed3. It has been rumored that this firewall heat shield will give your car the virility of a Canadian Moose, and the wisdom of an old sage. Please let us know your feedback by submitting a review today at:

<http://corksport.com/mazdaspeed-3-firewall-heat-shield.html>

### Pre-Installation Notes:

**These instructions were written for reference only** and the use of a factory service manual is recommended. Please read these instructions thoroughly prior to starting installation.

**How our instructions work:** To best cover all of our customers experience levels, we have included a table of contents/order of operations along with step-by-step instructions.

**These installation instructions were written using a 2013 Mazdaspeed3.** Other models and years will be similar.

**Make sure your vehicle is completely cooled down** prior to starting installation. If you are going to work on your car within an hour or two of having driven it, use a fan to cool off the car.

### Materials and Time:

#### General Info.

**Part #:** Gen-6-758-10

**Time Est:** 20 min

**Wrench Rating:** 1/5

#### Tooling List

3/8" Ratchet

10mm Long Socket

3/8" extension

#### Parts List

One (1) CorkSport Heat Shield

Two (2) M6x1.0x10 Nuts

Pg. 2

### **Installation and Assembly**

Section 3: Install the CorkSport Heat Shield

Pg. 3

Section 4: Reassemble the Vehicle

Pg. 3

# Part # GEN-6-758-10

## Detailed Instructions

 These installation instructions were written using a 2013 Mazdaspeed 3.

We recommend using plastic Ziploc bags and a sharpie to label all bolts and parts throughout the install.

### 1. TMIC Cover Removal (if applicable)

- a) Remove the top mount intercooler cover (TMIC) by removing the two 10mm bolts (red circles in Figure 1a).

 Now is a good time to look at your intercooler and see if you have any bent fins or debris lodged in the intercooler fins. Removing debris and straightening the fins will improve the performance of the intercooler.

Figure 1a

### 2. OEM Components Removal

- a) Remove thin silver firewall heat shield shown with the red circles in Figure 2a.

Figure 2a

The MS3 in figure 2a has a front mount intercooler. Your application may vary slightly.
