

CorkSport Oil Cap All MZR Engines

Thank you for purchasing the CorkSport Oil Cap for the Mazda MZR engines.

The CorkSport MZR oil cap is a one piece billet aluminum piece designed to add some style to your engine bay while being much more durable than the stock cap.

Please let us know what you think by submitting a review at: <http://www.corksport.com/corksport-mazda-mzr-oil-filler-cap.html>

Pre-Installation Notes:

Make sure your vehicle is completely cooled down prior to starting installation. If you are going to work on your car within an hour or two of having driven it, use a fan to cool off the car.

These instructions were written for reference only and the use of a factory service manual is recommended. Please read these instructions thoroughly prior to starting installation

How our instructions work: To best cover all of our customers experience levels, we have included an overview checklist for the more technically advanced users along with step-by-step instructions for customers that require additional detail.

These installation instructions were written using a 2010 Mazdaspeed 3. Other year MZR Engines will be similar.

Parts List
One (1) CorkSport Oil Cap

Detailed Instructions

1. Install the CorkSport Oil Cap

Make sure your vehicle is completely cooled down prior to starting installation. The oil cap will be very hot on a recently running vehicle.

- Remove the factory Oil Cap by unscrewing it counter clockwise. Shown in **Figure 1a**.
- Install the Corksport Oil Cap by twisting it into place with the logo forward. Make sure the O-rings seat into place correctly and the Cap is seated all the way down. Because the O-rings are new you will have to apply some force to seat the oil cap the first time. The logo will be forward when it is at the stops.

This completes the installation of your CorkSport Oil Cap. Start the Engine and watch for oil leaks. If a leak is noticed make sure the O-rings are not bound and the cap is fully seated. Check out our [knowledgebase](#) for additional install information

What's Next:

The **CorkSport Power Series Exhaust** for the 2010+ Mazdaspeed 3 provides noticeable power gains and solid value in an attractive and stylish part. Peak power gains for the exhaust system are 14 wheel horsepower. The CorkSport exhaust features 80mm exhaust piping, a straight through high flow muffler, and a 4 inch rolled stainless steel exhaust tip which all combine to give the Mazdaspeed 3 a powerful presence. The exhaust produces a very distinct, deep sound from the 2.3 DISI Turbo engine used in the 2010+ Mazdaspeed 3.
