

# CorkSport Mazda 3/Mazdaspeed 3 Canadian model LED DRL Light Kit

2010+ Mazda 3/Mazdaspeed 3

Thank you for purchasing the CorkSport LED DRL Kit for Canadian Model Mazda 3 and Mazdaspeed 3 vehicles. The CorkSport LED DRL kit will replace the incandescent daytime running lights with the modern sleek look of blue/white LED's. Each kit includes 2 bulbs with 23 LED's in each. The bulbs will emit a white light with just a hint of blue in the 6000-7000k color range.

Please let us know your feedback by submitting a review at <http://www.corksport.com/corksport-led-drl-kit.html>

**Make sure your vehicle is completely cooled down** prior to starting installation. If you are going to work on your car within an hour or two of having driven it, use a fan to cool off the car.

**These instructions were written for reference only** and the use of a factory service manual is recommended. Please read these instructions thoroughly prior to starting installation

**These installation instructions were written using a 2010 Mazdaspeed 3.** Other years and models will be similar.

Call (360) 260-CORK

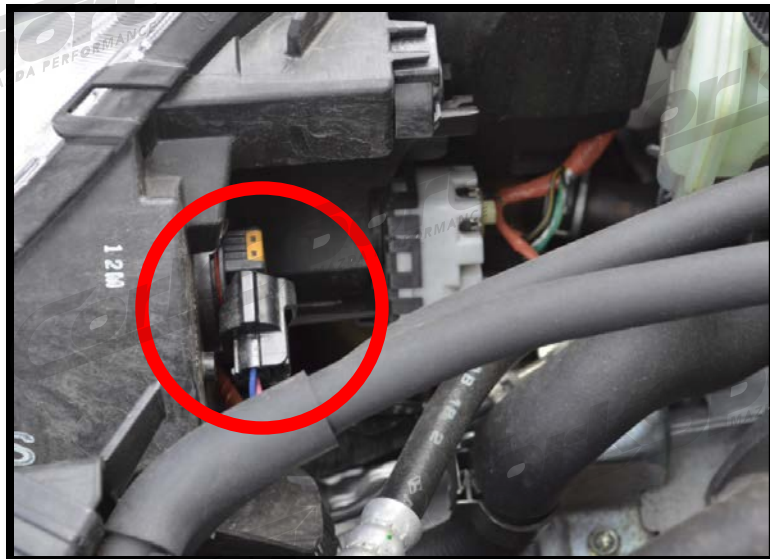

## Detailed Instructions

### 1. Installing the LED DRL Lights

- a. Locate the day time running light bulb on the back side of one of the lights (shown circled in **Figure 1a**).

**Figure 1b**

**Figure 1a**

- b. Pull off the connector by pressing down on the back side of the connector and sliding it off. It will come off easily. If it does not make sure you have pressed down on the connector far enough. **Figure 1b** shows the connection after it is disconnected.
- c. Pull out the factory bulb. To do this simply twist the bulb until it becomes loose. Then pull it out. **Figure 1c** shows the socket after the bulb has been pulled out.
- d. Replace the factory bulb with the CorkSport H8 LED Fog Light. Again, push it in and twist similar to how it came out (shown in **Figure 1d**).
- e. Replace the connector that was taken off in step b.
- f. Repeat steps a-e for the second light.

**Figure 1c**

**Figure 1d**

**This completes the installation of your CorkSport LED DRL lights. Turn the car on and check that the lights illuminate. If not double check that the connections at the lights are pushed all the way on.**

## What's Next:

### [CorkSport Underhood LED Light Kit](#)

Cast a cool white light on your engine bay with the CorkSport Mazda LED Underhood Lighting Strip. Connected directly to your battery, this easy to install kit uses a pin switch to activate the light when the hood is lifted, giving you an ambient white light that will enhance your Mazda or Mazdaspeed engine bay and keep the area brightly lit for under the hood installations and car shows.

### [CorkSport LED Rear Bumper Lights](#)

Get high performance bumper lights for your Mazda 3 and Mazdaspeed 3 with the CorkSport direct replacement rear bumper LED light kit. These premium quality light assemblies include 16 LED lights in each lense and are built for durability and reliability. Precision manufactured to match the OEM factory specifications, the CorkSport LED Rear Bumper Lights are easy to install and offer a perfect fit for your Mazda 3 or Mazdaspeed 3.

### [CorkSport Interior LED Light Kit](#)

Enhance the look of your interior by adding custom LED interior lights. CorkSport's LED light kit replaces the incandescent bulbs for the dome light, map lights, rear hatch light (or trunk if you have a sedan), glove box light, visor lights, and license plate lights. The lights simply plug in with no custom adapters or wiring required.
